

'APEX' COFFEE & POOL TABLE.

Designer Billiards proudly present the first ever 'Apex' Coffee & Pool Table. This stylish coffee table, complete with an industrial contemporary finish, pneumatically rises and transforms into a stunning pool table.

This groundbreaking 'one of a kind' table has ensured that we achieved what others said they couldn't do. This pool table exhibits as a work of art in any luxury home or games room.

Constructed in aluminum, the 'Apex' has black anodised detailing which has been skillfully hand-brushed with a fingerprint protective coating. It is complemented with beautiful hand-stitched leather pockets with a modern blue cloth.

The pneumatic system has been designed and developed for this particular project. The telescopic legs unveil the impressive rise from coffee to pool table at which point the locking pins are then deployed via magnetic reed switches, safely securing the table in the playing position.

The lightweight carbon fibre and aluminum leaf tops are easily removed and conveniently slide into the concealed underside storage.

'Apex' Coffee & Pool Table 7ft, prices start from £49,997

Designer Billiards prides itself that from initial concept to final construction, delivery and installation, every item is hand-built to the highest craftsmanship whilst our bespoke design service ensures that we can produce a gaming table to meet your most exacting expectation.
